YOUR FASCINATION.

An Eco-Friendly Product

It took nature many  
centuries for this creation.

We took years to innovate  
it to sheer perfection.

It will take decades before  
you come out of its fascination.

## DISCOVER AN ETERNAL FUSION OF STYLE AND SUBSTANCE.

In continuation of our tradition, we are about to turn your world into a fascinating experience. We, at **Argil DuraQuartz Surfaces™**, are glad to launch our signature innovation that will bring you all the bright shades of life...for a lifetime.

Over the years, we have remained at the forefront of ceramic industry and continuously evolved in terms of product innovation, design exploration and finding new ways to consumer delight. The same philosophy has inspired us to bring to you **Argil DuraQuartz Surfaces™**—an eternal fusion of style and substance.

A result of our constant pursuit for excellence, **Argil DuraQuartz Surfaces™** is the true synthesis of natural aesthetics and human innovation that easily create the breathtaking ambience in any space – big or small. **Argil DuraQuartz Surfaces™** is a trendsetting surface material for floors and walls in interior applications like kitchen bench tops, bathrooms - vanity tops, or exterior application like stairs, foyer, lounge, surrounds. It is an ideal choice for heavy footfall zones like malls, multiplexes, shopping arcades, stadium vestibules, airport lounges, and also hygiene-conscious zones like kitchen, restaurants, hotels, hospitals, and laboratories where high quality, sanitary and maintenance-free surfaces are required.

Welcome. Experience an eternal fusion of style and substance with **Argil DuraQuartz Surfaces™**

## BEAUTIFYING YOUR WORLD WITH THE GLOBAL TREND

**DISCOVER A FANTASTIC FUSION OF HUMAN EXCELLENCE AND NATURE'S BRILLIANCE.**

Argil DuraQuartz Surfaces™ is a high-quality, nonporous, composite material, built-up from hard, inorganic, polishable granulates, compactly bound together with a binder and a filler, coloured with various eco-conscious pigments. It has a smooth, resistant surface, comes in a variety of sizes and has a wide range of applications.

An incredible mix of long lasting durability and breathtaking aesthetics, Argil DuraQuartz Surfaces™ is just the right choice for those who love to experience the best things in life. Already a global trend in innovative surface material, engineered quartz surface material is quickly becoming the new status symbol for style. Argil DuraQuartz Surfaces™ proudly brings you the global surface-fashion statements to turn your desires into stunning realities.

DURABLE

## GET ENCHANTED BY A SURFACE-FASHION WITH TIMELESS AESTHETICS AND AGELESS BEAUTY

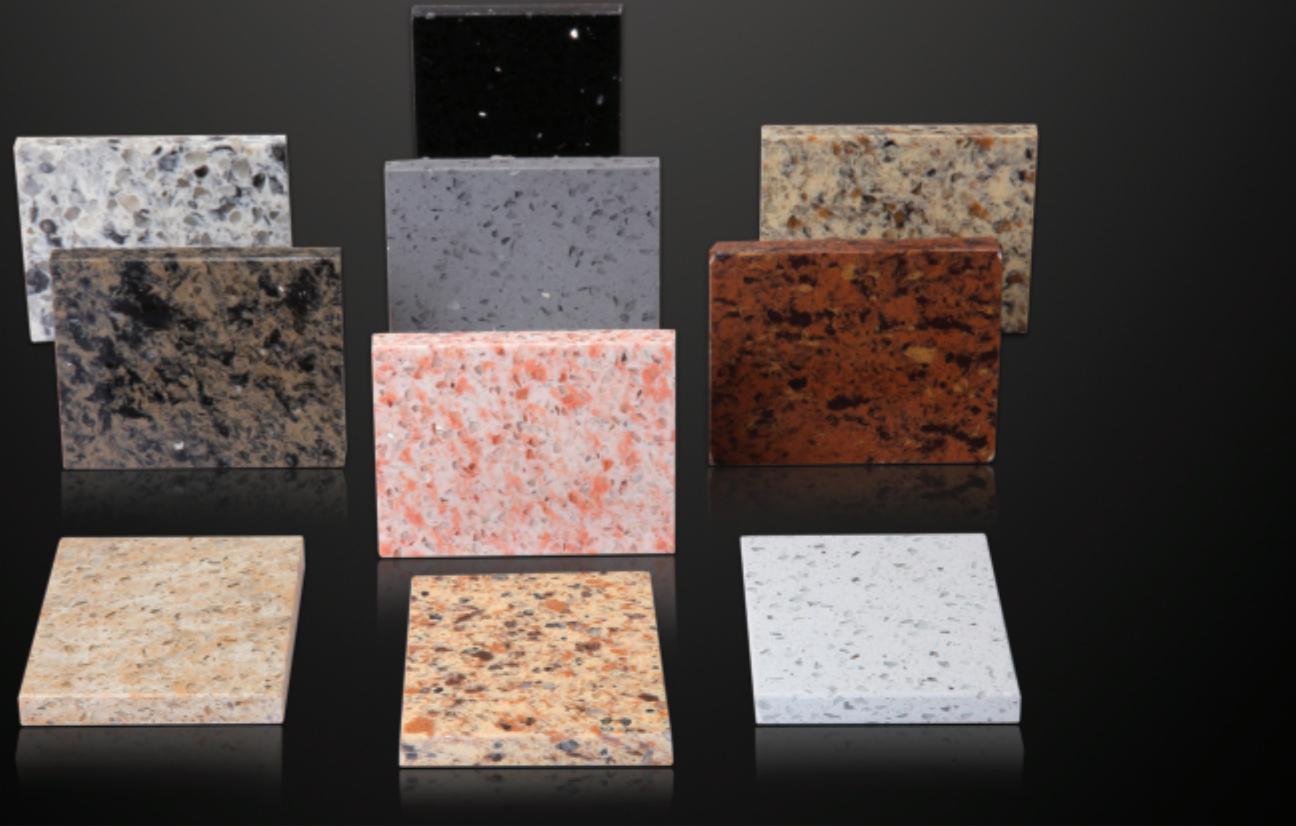

Just imagine a perfect, natural surface.

**Argil DuraQuartz Surfaces™** is a winner all the way when it comes to delivering best of style and substance both. Thanks to the world-class manufacturing setup with a state-of-the-art production assembly, stringent quality controls and our own strong commitment towards zero-defect policy, the mesmerizing range of **Argil DuraQuartz Surfaces™** comes pre-loaded with a promise to give you trendsetting options for your walls and floors. Turn your spaces into larger-than-life expressions of timeless aesthetic and ageless beauty that leaves a long lasting impression.

Our indigenous Research & Development process ensures that you get the finest mix of utility and beauty through the extensive range of **Argil DuraQuartz Surfaces™** as it consists of precisely selected natural materials - primarily quartz and granite. Other components in the **Argil DuraQuartz Surfaces™** are resin, colour pigments and selected additional ingredients for ensuring high durability, resistance, consistency and the design of your desires.

**Argil DuraQuartz Surfaces™** range of Surfaces is manufactured under a fully-automated production process, including professional carving, air-drying, polishing, and scraping and thicknessing techniques. At every stage of production, we remain alert to maintain the high-caliber precision and top-in-class aesthetics. No wonder, **Argil DuraQuartz Surfaces™** is rapidly becoming a synonym for style statement across its growing fan base across India and the world.

# HYGIENE

The combination of beauty and durability makes Argil DuraQuartz Surfaces™ the best choice for indoor or outdoor surface solutions, satisfying even the toughest demands. While its stunning design captures attention, the robust strength of its composition ensures this magic lasts for long time. Our highly advanced manufacturing process at a state-of-the-art plant ensures an absolutely perfect product – batch by batch and slab by slab. For this, the genesis of each Argil DuraQuartz Surfaces™ is carried out through a highly advanced assembly where the finest quality raw material gets transformed into a marvelous end product which has irresistible shine, zero porosity, perfect finish, uniform colors and amazing strength. Thanks to its zero porosity, Argil DuraQuartz Surfaces™ meets all hygienic requirements and is also very easy to maintain. A homogeneously spread key ingredient of Quartz within Argil DuraQuartz Surfaces™ gives it superb MOH7 Scale resistance to chemicals, abrasion, scratches, cuts and spots.

# WE BELIEVE, ONLY THE BEST CAN PRODUCE BETTER

To deliver the best product range of **Argil DuraQuartz Surfaces™**, we have equipped ourselves with the latest of technologies and the best set of equipment. The sprawling 8 acres state-of-the-art plant meets global standards of manufacturing process and quality control. We are a professionally managed company having a dedicated team of experienced professionals who diligently runs the constantly busy assembly to churn out one masterpiece after other for your walls and floors. We, at **Argil DuraQuartz Surfaces™**, are committed to the quality in terms of people, products, processes and service. At **Argil DuraQuartz Surfaces™** quality is not a policy, but a tradition. At every link of the supply chain we are committed to delivering quality to the customer.

The ultramodern plant of **Argil DuraQuartz Surfaces™** is equipped with the most modern production facility to deliver impeccable products in every batch. Our well-synchronized assembly consists of technologically advanced equipment like Raw Material Transport System (RMTS), Multi-color Mixing System, Automatic Vacuum Press, Auto-infrared Bridge Cutting Machine and fully automatic polishing line – most of them imported from around the world. The finest range of green (eco-friendly) quartz products is manufactured under the able guidance and leadership of industry veterans Mr. Rameshbhai and Mr. Mahadevbhai who are carrying forward the legacy of our founder Mr. Amarshibhai Prajapati.

# Argil DuraQuartz Surfaces™

## Born tough with beauty. By the experts.

Our commitment to give you only the best never stops at the sales. We make sure when you buy our product, you get complete satisfaction long after your purchase. Hence, our after sales team remains constantly at your service to provide every conceivable help in case of need. Also, the wide dealer network is available within your reach whenever you want to get floored by the fascinating range of Argil DuraQuartz Surfaces™.

## The Experts

Our journey from tradition to technology has been 60 years long. All these years have seen us growing with a single vision of delivering finest quality of building materials ranging from Roofing Tiles to Wall Tiles.

What started as a tradition has culminated into State-of-the-art technology. From the days of cent percent manual production, today we are equipped with fully robotized automatic manufacturing plants.

We manufacture irresistibly beautiful tiles in various size, colours and designs. Initiatives like ISO 9001:2000 Certification ensure that our manufacturing processes stay on cutting edge of quality.

Our flagship company "Prajapat Tiles Company" is a proud winner of the Highest Export Award by Government of India (State) and we have been felicitated with the Quality Tiles Manufacturing Award by Central Government of India.

## Taking Care of Your Argil DuraQuartz Surfaces™

is just as easy as it is to buy one. You will be glad to know that your Argil DuraQuartz Surfaces™ is a hassle-free surface solution that requires almost no maintenance. Due to its rock-solid non porous quality, it calls for no sealing while continuing to be as lustrous as new. You can simply clean them with soap and water or a mild detergent to keep them like you bought them just yesterday! In case of removing any residue from the surface, use only a non-abrasive household cleaner to safeguard its original shine. If you want to remove any sticky material like high-fat food, gum, nail polish or even a coat of paint, first graze away the excess material with any non-metallic object and then wipe away the marks or residual dirt with a damp cloth. For further assistance, you can contact our helpdesk and we will be more than glad to recommend a solution for any problem.

## Comparison

### Argil DuraQuartz Surfaces™ and Natural Stone

	Argil DuraQuartz Surfaces™	Marble	Granite	
	Flexural Strength (kg/cm²)	515	60	134
	Impact Test (cm)	135	29	61
	Water Absorption by Weight(%)	0.02	0.55	0.33
	Compressive Strength (kg/cm²)	2200	2161	1921
	Freezing Compressive Strength (after 25 cycles)	2082	2082	1906
